NOTE FOR []

STAT

I had a brief discussion with [] today on the new WSSIC. Within a week or two he will have completed a draft DCID which he will submit to [] I gave him the draft LOI and invited him to comment. He said he would do so shortly. I invited him to consider one additional point to be included in the LOI and that is the question of what WSSIC should be doing concerning conventional weapons systems, particularly as they relate to a possible MBFR treaty and treaty monitoring.
